A GOOD TICKET ASSURED.

IF THERE WAS EVER any doubt of extraordinary merit, it has been dispelled by the events of the last few days. With a unanimity as comnendable as it is unselfish, men of high standing in the party and in the ommunity have announced their willingness to accept places of comparatively minor importance on the ticket. are actuated solely by a desire for the public welfare, for there isn't ne in the list of available candidates who will not accept his nomination at

personal sacrifice. This sentiment is a clear indication of the healthful moral tone that exists among the people of Salt Lake City and county. It is an indication that a moral wave is rising which will sweep the political ringsters, gangsters and machine politicians out of control of public affairs and that will keep hem out of control. The proceedings of the last day's sessions of the Republican county convention showed that that party is dominated absolutely by one faction.

Men were nominated for legislative offices whose only qualification is their ability to utter the names "Smoot" and "Kearns" at the proper time when the rell is called for the election of United States senator. The legislators who are to be elected in Salt Lake county and throughout the state this fall will have other work to do besides electing a United States senator to succeed Senator Joseph L. Rawlins. That work is of far more importance to the commonwealth than the other, for it will vitally affect

The Democrats are going to name men who possess every desirable qualification. They will be men of integrity, ability, sound business and professional judgment; they will be men who know the needs of the state and who can frame or amend laws in accordance therewith. And more than all this, they will be men of unimpeached and unimpeachable honor and whose private lives are beyond reproach. Weighed in the balances with these men, the individuals composing the Republican ticket will be found sadly wanting in the judgment of voters who have a spark of political independence in their natures.

Salt Lake county especially has a magnificent opportunity to rebuke bossism and machine dictation. That the voters here will make the most of it The Herald has no reason to doubt.

THE SUNDAY HERALD.

THE HERALD would like to ask its readers this me orning if it hasn' more than fulfilled every promise it has made with regard to the excellence of The Sunday Herald? The only possible answer is an affirmative one. Tomorrow The Sunday Herald will be fully up to the high standard of the past. In many respects it will surpass former

Of much more than ordinary interest ow will be Frank H. Spearman's railroad story. Mr. Spearman's other contributions to The Sunday Herald have been widely read and highly appreciated. Tomorrow's story, Bky-Scraper." gives us some more information about the "kid engineer" and "Dad" Hamilton. It is full of interest. Another generous installment of "The Hound of the Baskervilles" will be published tomorrow. Thousands of readers of The Sunday Herald have become interested in this story; thousands of them are trying to guess how it will end, but the denouement is going to surprise most of them for a more unusual finish to a story of mystery has rarely been written.

Mr. Dooley will contribute his usual chapter of philosophy, discoursing in quaint way on pertinent matters that are fresh in the public mind. George Ade will have more of his funny fables, the work which has made Ade famous in more countries than one.

Then there will be the regular feaone of Lovey's cartoons, Herbert Brewster's literary gossip, Wait Mc-Dougal's story. for children, Marian Harland's page for housewives, a page of fashions, amusing illustrations and Nobody can afford to miss The Sunday Herald tomorrow, or any other Sunday, for that matter.

NO REPUBLICAN SPLIT?

BUT OUR CONTEMPORARY won't have it so," says the Smoot-Kearns organ, discussing The Herald's accurate accounts of the wide split in the Republican party. "It insists that there was inharmony and that there was much bitterness left after the proceedings, in spite of the for a specific purpose in 1901? fact that all was serene, and of the well-known truth that good Republicans never show the domestic bone of contention, in such rare cases as when this pleasant and efficient Republican

machine has run away with the bone and is now vigorously endeavoring to onsume it.

If there never was a "domestic bone f contention," why is it that no Sutherland leader has up to date exressed his intention to support that gislative ticket in its entirety? Why asn't the Tribune printed harmony nterviews with such men as Congress nan Sutherland, Lindsay R. Rogers, ice E. Allen, E. B. Critchlow, D. H. Wells, jr., Benner X. Smith and thers who might be mentioned? Has anybody heard that these gentlemen are plawing up the ground in an efort to elect the Salt Lake county Republican legislative ticket? Nary a plow has been pushed into the ground, o far as The Herald is aware.

The organ is making a base attempt to deceive its readers when it insists that the contrary is the case. And onesty is just as good policy in politics as it is in any other walk of

M'CARTY SHOULD RESIGN.

In all Friendliness and with due regard for fairness, The Herald would like to know why Judge William M. McCarty of the Sixth fudical district does not resign the office to which his constituents elected him two years ago. Judge McCarty has been nominated by the Republicans for the vacancy which is to occur on the supreme court bench when Justice Miner retires in January of next year. Much of his time must necessarily be occupied in campaigning, as much of Porter, Read, Sherman, Sprague, Hanthat the Democratic county con- cial district does not resign the office ention next week would nominate a to which his constituents elected him

It will be impossible for Judge Mc-'arty to give to his official duties that calm, dispassionate attention which is so necessary in judicial matters. Candidates for office are notoliously complaisant. They don't like to make enemies and they do like to make friends. Judge McCarty may be an exception to this rule but his actions for some weeks before the consultations for some week to make enemies and they do like to ention did not indicate it. But, for he sake of the argument, The Herald s willing to admit that Judge Mcbefore the supreme court bee first be-

gan buzzing in his ear. According to long established usage, Judge McCarty should resign his pres-Judge McCarty should resign his present position at once. It has been the almost invariable custom, among Republicans as well as Democrats, for judges to resign just as soon as they have been moninated for another office. The case of Augustus Van Wyck of New York is one in point. Judge New York is one in point. Judge Van Wyck held a high and honorable judicial position when the Democrats of New York nominated him for govrnor. Although he knew the prospects for his election were decidedly unfavorable, he immediately gave up

his judgeship. A more recent case in point is that of Judge Pennypacker of Philadelphia. some months ago Judge Pennypacker was 'nominated by the Pennsylvania Republicans for the governorship. Within a very few days his resignation was in the hands of the proper author-These are honorable examples for Judge McCarty to follow. oprieties are so clear that The Herald feels sure that Judge McCarty annot fall to recognize them.

More, he owes something to his con stituents. Only two years ago they elected him for a term of six years. He saw a chance to go higher. The Herald has no fault to find with him for making the most of that chance, but he has no right to hold one position and attempt to take another at the same time. There is a bare possibility that Judge McCarty may be elected to the supreme bench. The musical tea given yesterday afternoon by Mrs. Holmes was one of the most delightful events of the present season. The beautiful home was decorated in the autumn colors, and presented a lovely picture to the guests as they entered. Autumn leaves in all their wealth of color filled the vases, and branches of the same were arranged throughout the rooms. In the dining room the table was decorated with the autumn colors, and here Mrs. with the autumn colors, and here Mrs. Jay T. Harris served sherbet and Mrs. W. Cunningham poured coffee. At a day except Su W. Cunningham poured coffee. At a day except Su day

and Miss Grace Emery served punch. The programme presented during the afternoon included two charming solos by Mrs. Martha Royle King, "Spring Is Here" and the "Plantation Lullaby," and two by Mr. Fred Graham, "My Dream" by Tosti and Miss Gaynor's "Slumber Boat." The many friends of both the young artists said that they had seldom been heard to so good advantage, and with Mr. Shepard as accompanist, it is needless to say their songs were greatly enjoyed.

**Today at the Country club promises to be a specially brilliant day. Tea will be served as usual at 4 o'clock, but there will be such an array of hostesses that every man in the club may be served with his tea at the same time. The hostesses for the day are "The Bacheler Maids," and the maids are the Misses Crawford, Cosgriff, Dooly, Dern, Geddes, Harkness, Judge, Kenyon, Kervin, Kinney, Leonard, Love, McGrath, McCornick, Miller, Nason, Porter, Read, Sherman, Sprague, Hanauer, Woodward, Burke and Young, Needless to say, there will be a larger attendance than usual. The men will play the first round in the club championship.

A Steady-going Volcano.

A Steady-going Volcano.

Santa Barbara country is naturally divided into a northern and a southern half by a range of rugged mountains varying from 2.000 to 4.000 feet high. The city of Santa Barbara Monteetto and other health resorts are along the coast in the southern half. Los Alamos is near the middle of the great valleys comprising most of the northern part of the country, and is about sixty miles from the city of Santa Barbara, with a big mountain range intervening.

For many years there has been a small active volcano on the Los Alamas side of the mountain. It is almost within sight of the old Lost Alamos-Santa Barbara stage road that crosses the mountain by the San Marcos bass. Hunters and cattlemen of the vicinity and prospectors are familiar with it. Smoke and steam constantly issue from various fissures along the summit of a plateau or shelf near the northern slope of the mountain. Viewed from the distance of the old stage road these manifestations appear like small camp fires. They have never developed any alarming tendencies and have attracted very little direct investigation. And yet they may become vent holes from which long-confined ashes and lava will spout.

A REMARKABLE RAILWAY. Earns Only a Dollar a Day, Yet Is Worth Six Millions.

(Denver Times.) The Colorado Eastern railroad is like a famous English noet—it has awakened from a night's sleep to find itself famous. From time to time the road has some into life for a time. These awakenings have been when the romane writers of railroad news have sold the road to some eastern line for a right of road to some eastern line for a right of an entrance into Denver. There have been many stories written
recently about the Colorado Eastern. One
is that its expenses are \$25 and its earnings \$1 a day. The expense is all right,
but how about the carrings? Does it avcrage \$1 a day?

The Colorado Eastern was built in 1885
to Scranton, where an immense deposit
of coal was opened, but the coal proved a
failure, and the railroad followed, naturailly. It cost more than \$1,000,000 to
build. How much its right of way and
terminals cost nobody knows. Today the
right of way anad terminals are worth
from \$5,000,000 to \$6,000,000, according to a
conservative estimate. It is not even
known who owns the property, Henry T.
Rogers, president of the park board, is
president of the company. He is credited with being the principal owner. The
Chicago & Northwestern has, from time
to time, been credited with owning the
property, having bought it something like

and made to do duty again as new. The
favorite of the list, and the oldest, is
how Jav Gould went over the road once
to buy it, the engineer ran fast, per his
instructions, and Gould sat on the floor
of the flat car with his hat down over
his cars—and came back in a carriage!

Ing story: A number of years ago three prospectors were working some mining claims south of Prescott. Ariz. When they left town they had expected to return in two days, but, finding more to do than they had anticipated, worked a third day without grub, in order to finish up. They worked as long as they could see, thinking they should have no trouble in following the trail after dark. That hight, however, was unusually dark, and they could not see the trail. Being fatigued and hungry, they were losing much valuable time rooting about to no nurpose. They had a black-and-tan hound with them, and the idea occurred to one of the boys to rub the phosphorous from a bunch of matches on the dog's tail. The scheme worked beautifully. The dog found no difficulty in following the trail; the men followed the hyperborized reactives. following the trail: the men followed the phosphorized narrative of their canine guide and reached Prescott in time for an early breakfast.
